

High Density Housing - Solutions?

High Density on the High Ground Eight Inc., 2006

The Monotony of High Density

These winding streets of identical houses do nothing to break up the monotony of the asphalt. The out-skirts of Denver are a good example of the runaway sprawl of... [more](#)

HABITAT 67

Habitat 67 is a housing complex and familiar landmark located in Montreal, Canada. The complex was built as part of Expo 1967 - one of the world's

largest universal expositions. Its striking design was created by architect Moshe Safdie based on his master's thesis... [more Wayfaring habitat67](#)

Habitat 67 - St. Lawrence River, Montreal

Rokko Housing I, II, and III

The sets of houses I, II and III are located in neighboring plots to each other, on Mount Rokko, on the slopes of the city of Kobe. The houses are built on the hill, following the slope. The first set is at the foot of the mountain, built on a hillside facing South where you can enjoy a great

Architect: Tadao Ando - Kobe, Japan panoramic view of the port of Kobe and Osaka Bay. Rokko II complex is located on a site above and to the left of the first set, being four times higher. For the third is three times larger than... [more Rokko Housing](#)
