Outdoor Gourmet...

A Fun Way to Cook!

Cooking as an art, the Happy Pizza Oven from Italy is a delightful cooking tool that brings us back to the traditions of our ancestors. This environmentally friendly, wood burning pizza oven operates with high thermal efficiency and low greenhouse gas emissions making it an economical choice. This process cooks the food quickly and effortlessly and makes cooking fun!

The Happy Pizza wood fired oven comes in three sizes: The Solo 28" w x 24" d x 58" h, Family 28" w x 28" d x 58" h and Professional 28" w x 39" d x 58" h. The oven compartments measure 24" wide and are 20", 24", and 35" deep respectively and made of the highest quality stainless steel. The way it works is simply amazing. The inside of the overall dome structure heats up and reflects on the internal cooking stone so that the oven heats up to the cooking temperature in just 8-10 minutes. The outside of the oven remains cool due to the natural rock lining that works as an insulator. And this mobile pizza oven can easily be wheeled to an outdoor garden or kitchen area or placed indoors for a joyful cooking experience. The package includes: Pizza oven, removable oven door, stainless steel shelf, flue pipe and chimney, wood holder support and plate, fire tools (blower and 2 aluminum paddles), and the trolley base (requires some assembly). Colors: Red, Green, White, Blue, Maroon, Grey, Yellow and Stainless Steel and custom colors upon request.

This pizza oven has so many wonderful attributes. Starting with the perfect wood fired pizza, you can also cook meats, fish and vegetables quickly infused with the unique flavors of a wood fire, the high quality stone liner heats the food perfectly and quickly cooks the food without burning it, there is an easy-to-read thermostat on the outside of the oven compartment and the product is light weight and easy to transport. As an added bonus, the top part of the pizza oven is removable and can be placed on a countertop or built into any structure that has room for the chimney to vent out. This pizza oven has benefits that will transform an everyday chef into a culinary star!
