

Wittus Newsletter

January / February 2022

Well Wishes from Wittus!

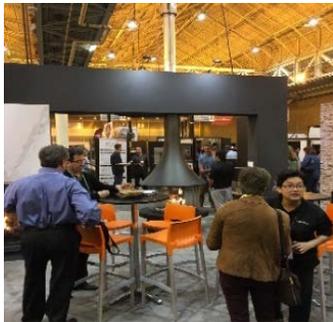

It's time to party and make some noise, the New Year is here! There's so much to be joyful about, good business and happy customers lead the way into 2022. Let's go into this year with an open mind and an open store. Check out our website www.wittus.com for great heating solutions. Give us a

call at 914-764-5679 for product availability and more. **Wittus wishes you a very Happy New Year!**

Shows & Expos 2022

Trade Shows are important. Here are three popular exhibitions to start off the year. First on the roster, Progetto Fuoco in Verona, Italy, February 23-26, is an innovative European showcase for new and existing products. The International Builders Show (IBS) in Orlando, Florida, February 8-10, is a large showcase of home products for builders, architects and designers, and HPBEXPO in Atlanta, Georgia, March 2-5, is the annual North American hearth industry trade show.

Testimonials Tell a Story

A customer shares their experience when they write a testimonial. Here is a recent review from a happy client.

"Wonderful to deal with a company that really cares about customer service! Super nice people who really went above and beyond to make sure we were happy with our purchase. This is a company that stands behind their products. We 100% recommend Wittus-Fire by Design... Plus they have a great selection of fires to choose from!" For every great company there are even greater customers behind them. Wittus has some of the best around. See the Testimonials on our website news page. *The client's Toba pellet stove featured in this photo.*

Stove News

One Stop Shopping with Style

"Wood stoves and fireplaces tend to become the focal point of a room, and even of a home. They bring people together in the cold winter months and on chilly evenings, it is often around the fire that people gather to create lasting memories. It is therefore important that the appliance fit into the décor while also suiting the lifestyle and meeting the needs of the homes occupants."
~Silver Linings

Spartherm Modular

The Modular 600 & 700 series is a freestanding stove that sits on a base and can be used in different combinations. Beautifully crafted by Spartherm in Germany from the finest steel, these units offer a heating solution with style. The Modular firebox can be placed in different locations on the bench or used with no bench at all. The bench also functions as wood storage underneath. Special features include, four bench options, an air control adjustment, a large full-size firebox that fits an 16" log and an outside air connection option. *Spartherm 600 base B shown above.*

Optifire Zero Clearance

Made in Belgium, the Optifire zero clearance built-in fireplace is the perfect product for homes without an existing fireplace. Contemporary design with high heating capabilities, the Optifire can heat up to 3,000 sq. ft.

Available with a flat or curved door option, both have a large glass viewing window that highlights every bit of the fire. The Optifire is a perfect match for use in new construction and streamlined interiors.

Start Your Fire with Ease

Lighting a fire on a cold winter night is fun with this Wittus product. The Quick-Fire fire starter packets make lighting your stove as easy as 1,2,3! These odorless, environmentally friendly sealed paraffin packets can be used indoors or outdoors. Each box contains 100 QuickFire fire packets.
