Get Outside and Explore!

Trade Shows, outdoor events, and nice weather are all great reasons to get outside and socialize. A good place to start is by attending the Field & Supply show happening May 27-29 at the Hutton Brick Yards in Kingston, NY. If you are ready for international travel and looking to see what's new in the European stove market, the Progetto Fuoco has been re-scheduled for May 4-7 in Verona, Italy. It's time to enjoy every outdoor opportunity coming your way this Spring.

New Trend Color for Stoves

Color is a powerful tool, and adding a bright color to a fireplace adds interest to an everyday home application. The Rondo from La Castellamonte, Italy comes in a range of fashionable colors including Pervinca Blue, which is similar to Pantone's 2022 color of the year Very Peri. See more product information for the Rondo and Stack stoves on our website www.wittus.com and get in touch for prices and product ordering details.

Fireplace & Home Safety

Fireplace safety is very important, and knowing what to do in your home is essential. Keep fireplaces and woodstoves clean by following these 5 easy tips:

- Have your chimney cleaned and inspected by a professional.
- Clear the area around the hearth of debris, decorations and flammable materials.
- Always keep the fireplace door closed once you have established a fire in the firebox.
- Keep the air control partially open, fully restricting air supply to the fireplace can be the cause of creosote build-up that could cause a chimney fire.
- Always follow the wall and furniture clearance rules as posted in the products manual.

Stove News

One Stop Shopping with Style

"More than one-third of Americans use fireplaces, wood stoves and other fuel-fired appliances as primary heat sources in their homes."
~Taos Village News

Stromboli Rotating Stove

A rotating stove with style, the Stromboli fireplace is from Romotop in the Czech Republic. The tall firebox and large viewing window and curved oval shape are just a few of the magical properties of this stove. Able to turn 360°, the Stromboli is a beautiful fireplace that is perfect for rooms that need

flexibility. Available in steel, tile, natural stone or sandstone side cladding. *Stromboli in sandstone shown above.*

Stack Stove, Masonry Heater

Beautiful ceramic wood burning stoves from La Castellamonte, Italy. The Stack and Rondo stoves follow the finest artisan rules. Made by hand with quality materials, these stoves are an expression of true craftsmanship. The Stack stove is based on the concept of modular components with a choice of different base options. The Rondo is an elegant ceramic stove available in solid colors or with contrasting floral painted patterns. See our website for more information. *Round Stack Slim in Gloss Red shown above.*

Showing Support from Wittus

The current World situation prompts Wittus to voice our support for Ukraine and all of it's people. In these trying times, it is integral that we stand together strong and show kindness whenever possible and go above and beyond the everyday mundane in our thinking and our actions.
