

## Wittus Newsletter

May / June 2019

### \$\$\$ Opportunity this Spring

If money fell from the sky, we would all be millionaires! Having great products to sell gets you one step closer. Spring is a great time to prime your customers for future sales. Take a look at our product selection and stock your showroom while the going is good. The Cosmo

and Cubic stoves are great contemporary standards. The Shaker is a modern classic, and there are many more to choose from on our website [www.wittus.com](http://www.wittus.com) under the products listing.

### On The Road Again

Wittus road trip! Niels took a drive up to visit Stove and Flag Works in Montpelier, VT in the early Spring. The Domino 8 maxi cook stove by De manincor of Italy is beautifully displayed in their showroom, seen here at right. It is important to visit dealer locations to catch up on industry news and to see what's up in showrooms other than our own.

Ray from Stove and Flag Works was a great host. Niels also stopped by Green Energy Options in Keene, NH to see their new showroom (shown at left), where they have the Wittus Shaker on display. Wow, what a great road trip!

### Clean up for Good Measure

Take a look around, what you see is what your customers see. There's never a better time than the off season to get your showroom into shape. Everyone chips in at Wittus when it's clean up time, even our office dog Darby seen here helping Gail organize trade magazines. Some industry favorites include Patio & Hearth, Hearth & Home, Metropolis, Cabin Life, Products and Dwell Magazines. \*B&G Optifire seen in the background.

### Stove News

One Stop Shopping with Style

*"Pop quiz: You're having a cookout for your friends and family. What are you cooking? If it's hamburgers, hot dogs and veggie kebabs, that's actually officially called grilling."*

~Food Network

### The Firebird Grill

The Firebird grill is a unique outdoor cooking product. Made in Denmark using the highest quality materials, the Firebird has distinct features. The conical shape is designed to direct the smoke away from the chef and actually makes building a fire easier. Cooking on this grill is a pleasure and the wood fire adds flavor like no other. The Firebird grill is the perfect addition to an outdoor space that longs for a sculptural element. Made of durable cor-ten steel that takes on a rustic patina over time, the Firebird grill blends in with its surroundings. See product details on our website [www.wittus.com](http://www.wittus.com). *Firebird with Star Pillars shown here.*

### Double the Fire, Twinfire

Originally designed to minimize pollution in third world countries, the Twinfire's patented double burn system is most efficient and clean burning. Made in Germany, the xeeos Twinfire utilizes high quality materials. Special attention to details such as the thermally decoupled silicone handle, the uniquely shaped fire grate, and the optional lower steel gate, have created an award winning product. Available in six distinct models: Basic, Solo, Classic, Elegance, Pur and Magna. *See the entire collection on our website.*

### Wittus Wood Holders

Need a few pieces of wood nearby to get your fire going? Wittus has some great wood storage solutions like the Corium wood holder in leather with steel frame. Strong and stylish, this hearth accessory does the trick. Measuring 17"L x 18"W x 21"H and available in black, gray, brown, tobacco, red and green leather. See the full selection of products on our website under the Accessory product listing. *Corium in green leather is shown here.*
