Wittus Newsletter

November/December 2026

Full Speed Ahead!

Get out your horse and wagon and keep moving forward. The end of the year is near. Times have changed for the better since those days, wood is delivered in trucks! Once again, it's time to review the materials in your showroom and see if you need any Wittus brochures or product information to keep the ball rolling. For more information visit our website dealer log on. ID: dealer, PW: fire. www.wittus.com.

Wittus Driveway party, 2026

The Wittus driveway party always pleases. Once a year in the Fall we come together to celebrate good business, good people and very good food. It's the perfect time of the year to sit outside and look back on the year, and it's our way of letting our team know how much we appreciate them. *Wittus team shown here.*

Fire Burning Tips

All a fire needs is a spark and oxygen and its journey begins. The actual fire is not generated from the wood itself but from the gases emitted from the heated wood. Dealing with fire is an easy task!

*Using fire starters is a proactive way to keep your chimney as clean as possible. Quick Start fire starters from Wittus are a sure bet.

*A fire will start easily with properly dried kindling and wood. The stove and chimney must reach operating temperature for clean combustion.

* Burning paper, cardboard, rubbish or treated wood is not advised. These materials can be toxic and generate a lot of ash. Unknown debris could also damage your firebox.

Stove News

"One Stop Shopping with Style "

"High-efficiency performance, bold aesthetics, and multi-functional designs that act as room centerpieces. Stoves are moving away from plain, minimal setups. Traditional matte black and gray are sharing space with moody greens, rich terracotta clay and metallic brass or gold accents." *~AI Overview*

La Castellamonte Rondo

Fun color is in style! The Rondo, from La Castellamonte, Italy is a beautiful ceramic stove that is available with solid or patterned side cladding, the stove is hand made of the finest materials and available in a variety of colors. The Rondo is available in 5 distinct sizes. See all product information on our website under the Stack stove product listing. *Rondo size 2 with patterned body shown here.*

NEW! Jydepejesen Country Stove

The Country classic wood stove from Jydepejesen incorporates high efficiency, great quality and signature features. A simple design format creates a stove that heats well, has contemporary classic details and is flexible as a freestanding stove. This stove has the perfect dimensions that would allow it to be placed inside an already existing open hearth. *Coming soon to the Wittus collection.*

QuickFire Starters

Light your fire easily and efficiently with QuickFire fire starters available at Wittus.
