A Good Time to Reflect

It's the final stretch for the calendar year and the beginning of the Holiday season. Time to gear up for the changing weather and the frantic rush to secure home heating solutions. Wittus has some great products and can provide contemporary stove options for you and your clients. Go to www.wittus.com to see our line of wood stoves and fireplace accessories.

A New Stove Challenge for Wittus

Wittus with its Hot Stuff product is one of the nine finalists to advance in the DOE Wood heater Technology Slam. Three will advance to the final stage and move on to the testing phase at the Brookhaven National Laboratory in NY. This year's

teams, a mix of universities, major US manufacturers, European partners and backyard inventors, have some groundbreaking innovation to help re-invent wood heaters so they operate cleanly, not just in the lab but also in homes. For more details, go to: www.energy.gov.

Here Comes the Shaker Stove

The long wait is over, the Shaker will be available in early 2023! The Shaker stove has passed the EPA 2020 testing with flying colors and is eligible for the 26% federal tax credit. Existing orders will be filled first and new orders will be processed in first quarter of 2023. The Shaker

stove is available in short and long bench models, with left or right side door opening options and top or rear vent. Thank you for your patience, we are delighted to offer this beautiful stove to all of our dealers, customers and friends.

Stove News

One Stop Shopping with Style

"A wood stove can definitely heat a whole house, but it depends on the size of your house and how many stoves you have. In general, a stove will heat between 1000 and 2000 square feet of space. So, if your entire house is less than that, you could probably use just one wood stove to keep the whole thing warm."

Lugo Cook Stove

The Lugo Cook Stove from Romotop, in the Czech Republic is a combination cook and home heating unit. A contemporary styled stove that is perfect for kitchens and rooms that would benefit from a secondary heat source, the Lugo is available in black steel, tile or natural stone cladding on the side. This versatile cook stove is a must have. *Lugo in natural stone shown here.*

Stack Ceramic Wood Heaters

The Stack stove from La Castellamonte in Italy is both stylish and practical. Made from clay by local artisans, the Stack stove is a one-of-a-kind contemporary heater. Available in two sizes 44" & 54" and four base variations: wood, rim, long, and slim. A choice of whimsical colors adds to the appeal of this fantastic stove. See our website for more information. *Shown here is the Round Stack wood in gloss red.*

Fantastic Fireplace Tools

Contemporary fireplaces are complimented by modern tool sets. The Ferrum tool set shown here is just one of the fireplace accessories available through Wittus. It is made of the finest materials from Ferarri, Italy. See the full collection of wood holders and fireplace accessories on our website under the Accessories product listing.
