Shaker Stove News

The Wittus Shaker stove is so popular that we are out of stock in all models at this time. We are in the process of testing the Shaker stove to meet the new 2020 EPA standards.

Initial testing was delayed due to the Covid-19 virus, but we are now back on track and we conservatively estimate the new stoves to be ready by early 2021. We are now taking orders for the new Shaker stoves when they become available, or you can ask to be added to our waiting list by e-mailing wittusreply@msn.com. Please note that the 2020 stoves are top vent only. You can reference the new prices on our Homepage bottom center, dealer log on, ID: dealer, PW: fire. Call or e-mail us with questions. *Testing, Testing 123, Shaker stove testing process shown at left.*

Stack Stove

Design meets high end style with the Stack ceramic stove from La Castellamonte, Italy. Each stove is carefully hand-crafted by local artisans to the highest quality standards. The burn system utilizes a sophisticated ceramic baffle for optimal combustion, and the design incorporates current technology that keeps energy-saving and environmental protection in mind. Simply a beautiful stove to have around the home. *Stack stove slim in second size shown above.*
