

## Wittus Newsletter January /February 2020

### Bring on The New Year!

The old year went out with a flurry of business and Wittus wants to keep the momentum going for 2020! We would like to wish all of our dealers a prosperous New Year filled with abundant sales. For

product information, current pricing and everything Wittus go to our website [www.wittus.com](http://www.wittus.com).

### Out with the Old, In with the New

Replacing old stoves with modern heating sources is one of the best ways to update a home. Making this change not only eliminates smoke and dust that some older burners can generate, but makes a living space more efficient and will save the homeowner money in the long run. This is the way to a happier, healthier environment. Let Wittus guide you through the process with contemporary products that operate cleanly and efficiently. See our website for the most recent additions to our collection. *Lugo cook stove in steel shown here.*

### Trade Show Alert

One of the most important Trade Shows in Europe is coming up this February 19-22, 2020 in Verona, Italy. Progetto Fuoco is a biennial trade fair about technologies for alternative energy sources. Well worth

the trip for industry professionals, especially designers, technicians and entrepreneurs, who want to see what's happening in the future. With hundreds of exhibitors from 40 different countries, and a special indoor air system that allows exhibitors to burn their products and show their stoves in action, this is a very unique attraction. Visit [www.progettofuoco.com](http://www.progettofuoco.com) for more show details.

### Stove News

#### One Stop Shopping with Style

*"A hearth retailer can guide you through the wood stove removal and replacement process. With hundreds of stoves to choose from, the variety and cost ranges are wide. Some local governments and agencies offer tax incentives for replacement."*

*~Environmental Protection Agency*

### Twist and Shout with the Stromboli

What goes around, comes back around, the Stromboli rotating stove offers innovative style and heat that can warm the whole room. The three-point locking system allows the fire to be viewed from all angles and the stove body can rotate 360°. The glass window measures 16" w x 20" h and has an air-wash system to keep the glass clean. What a great fireplace! *Stromboli with tile side cladding shown here.*

### Phoenix & Firebirds Fly Year Round

If you thought the grilling season was over, think again! The Phoenix and Firebird grills are an all year round item. Think firepit, think warmth, think of all the possible options for an outdoor space. Made of durable cor-ten steel, a material that can withstand even the harshest of seasonal elements. Get one for your showroom today. Both models are in stock and ready to ship. *Phoenix grill with seasonal singers shown here at The*
