Wittus Grills on Fire!

The Phoenix & Firebird outdoor grills in action, recently seen at the Field & Supply Market show at the Hutton Brickyards facility in Kingston NY, which took place October 11-13. Wittus was there in volume with both grill models which were placed throughout the fairgrounds and lit up for action. The Fall show

was a great success with 40% more in attendance up from the Spring show. This is the ultimate event of the season, which promotes great products from local vendors throughout the Hudson Valley. Hope to see you there next Spring! More info at www.fieldandsupply.com.

Grill Cleaning 1,2,3!

Outdoor products can live a long life if cared for properly. Here are a few easy steps to keep your grill in tip top shape all season long.

- 1) Give your grill a seasonal once over. Look for signs of wear and tear and clean up any debris that may be lingering in the firebox.
- 2) Brush off any food-stuff that may have gotten caked on grill parts during cooking.
- 3) Scrape the grill rack with a wire brush to clean it. The more the grill rack sparkles at the end of the season, the better it will look when you see it in the Spring.

Great Heating From Wittus

Heating a home is very important, and heating it efficiently is even more so. Making the right choices can be easy if you understand what's available. Wittus products strive for both contemporary beauty and high heat output, our stoves are designed with the client in mind. Adding a freestanding stove to a space as a secondary heat source or placing a zero clearance insert in a place that never had one, will increase a home's value and its heating capacity. Visit www.wittus.com for full product details and order a stove today! Optifire insert shown above.

Stove News

One Stop Shopping with Style

"Firewood dealers come in all shapes and sizes, and although they may appear to be established or questionable, that does not necessarily mean you will be dealt a good or bad hand. It is super important to buy well-seasoned firewood, anything else will cause trouble in more ways than one."
~Alliance for Green Heat

The Shaker, Stove to the Stars!

The Wittus Shaker stove is a superstar when it comes to wood burning stoves. This small wonder heats up to 1,300 sq. ft. A contemporary classic that goes with most interior decors, this product is one of the very best. Available in Shaker short or long bench with door opening options. Order the Shaker today and fill your home with royalty.

Stack Ceramic Wood Burning Stove

A ceramic wonder from the hillsides of La Castellamonte, Italy. The Stack stove comes in a choice of bright colors, two heights and different base options. The burn system utilizes a ceramic baffle for optimal combustion and incorporates

state-of-the-art technology. This whimsical wood burning stove is a favorite in designer circles. Custom order for most models.
