Cook Stove Cooking Tips

Practice makes perfect when it comes to cooking with a wood burning stove. With some patience and these three helpful tips, cooking with wood is as easy as 1,2,3!

- 1) Use kiln dried wood that is fully dry to make an even slow burning fire.
- 2) Keep your oven temperature steady by using the oven thermometer.
- 3) Allow ample time for the oven to heat to the proper temperature the recipe calls for to create the perfect meal.
